Quick Fun for DOS
with the Audiotrix Pro

1. Install Audiotrix Pro in computer (refer to User's Guide pages 17-22)

2. Install **Setup Disk** software (Read carefully the instructions displayed on-screen) Reboot your computer.

3. Type TEST from \TRXPRO directory to ensure all setup parameters are correct

4. Type JUKEPRO from \TRXPRO\DOS subdirectory and choose File / Open / DEMODOS1.JUK. Click on PLAY (>) to hear selections. Jukebox will play both .WAV and .MID files. Only the Windows™ Jukebox can play selections from a CD.

5. Install **DMP Module player** (Read carefully the instructions displayed on the screen). Modify AUTOEXEC.BAT file as per instructions. Reboot your computer. Type DMP @MODS1 from \TRXPRO\DMP subdirectory to hear selections. Press <N> to hear next selection.

    N.B. Loudspeakers have been included with the Audiotrix Pro as a convenience. Higher quality speakers will increase your enjoyment considerably.

Quick Fun for Windows™
with the Audiotrix Pro

1. Install Audiotrix Pro in computer (refer to User's Guide pages 17-22)

2. Install **Setup Disk** software (Read carefully instructions displayed on-screen) Exit Windows™ and reboot your computer.

3. Type TEST from \TRXPRO directory to ensure all setup parameters are correct

4. From Mediatrix program group, access JUKEBOX and choose File / Open / DEMOWIN1.JUK. Click on PLAY (>) to hear selections. The JUKEBOX can play .WAV files, .MID files or CD musical selections. Choose List / CD Track to play to add a CD musical selection. For 44 voice selections (combining FM and Wavetable), choose DEMO44.JUK. To hear all 44 voices, access Main program group from Program Manager. Choose Control Panel / OPL4 Synth and click on BOTH for Synthesis type. Return to JUKEBOX and click on PLAY (>) to hear selections.

5. Install **MusicMagic**™ MIDI player. From Midisoft program group, access MusicMagic™. Choose File / Open / RENDVOUS.MID (from the \TRXPRO\MIDI subdirectory). Click on PLAY (>) to hear the selection.

6. Install **Sound Impression**™ rack mount interface. From Midisoft program group, access Sound Impression™. This interface will permit you to play any .WAV, .MID or CD musical selection.

7. Install **Soft Karaoke**™ player. From Soft Karaoke program group, access Soft Karaoke™. Choose File / Open / NEW_YORK.KAR. Click on PLAY (>) to hear the selection.

8. Install **SuperJAM!**™ **Jr**. From SuperJAM! Program group, access SuperJAM!™ Jr. Choose Song / Open / DEMO.SJM. Click on PLAY (>) in the Song window to hear the demo song.
